

INTRODUCING GRABBER'S CEILING GRID CLAMPS

CEILING GRID CLAMPS

High-quality galvanized steel grid clamps designed for temporarily securing main grid and cross tees to wall angles while riveting grid together.

Clamps include rubber inserts to securely hold the grid without damaging it. Quick-release lever makes it easy to install and release the clamps.

Item Number: **BPGGC**

FEATURES:

Galvanized steel construction

Rubber inserts

Quick-release lever

**4 clamps included
in each pack**
