

THE ULTIMATE WOOD SCREW

UltraPro™

**ULTRAPRO™ IS SHARPER,
FASTER, TIGHTER AND
CLEANER**

We take the hassle out of
driving screws so you can
concentrate on the job

7 REASONS ULTRAPRO IS THE BEST WOOD SCREW YOU WILL EVER USE

- Nº1** **LOX® recess precision fit** has 8 contact points to handle high torque with no strip-outs.
- Nº2** **Extra-sharp QuickGrab™ points** start immediately into wood, stabilizing easily for off-angle driving in tight spots.
- Nº3** **Self-drilling Type 17 point** means no pre-drilling, even for hardwoods.
- Nº4** **UltraCut™ threads** clear out wood chips as the screw drives in, reducing friction, binding and splitting.

- Nº5** **DrawTite™ threads** pull wood members together for a tighter and more accurate connection.
- Nº6** **Patented Scavenger® II** spiral head self-countersinks, even into hardwoods, leaving a flat flush surface.
- Nº7** **GrabberGard Gold** exterior-grade screws have a 1500-hour salt spray rated coating with a limited lifetime warranty against corrosion.

INTERIOR - YELLOW ZINC

Interior screws with yellow zinc coating install fast and have more holding power than nails and most other wood screws. They're great for framing, fabrication, remodeling projects and more.

EXTERIOR - GRABBERGARD® GOLD

Exterior screws with GrabberGard Gold coating are 1500-hour salt spray tested and carry a limited lifetime warranty against corrosion. Choose them for exterior projects like decking, fascia, brock mold and fencing.

LOX RECESS DRIVE

With 8 points of drive contact and a sure-fit bit, LOX drive makes the most of your power tool's torque. It takes less effort to drive, is much less likely to strip out, and extends bit life – giving consistent results drive after drive.

IS THE SCREW YOU USE DESIGNED FOR YOUR POWER TOOLS?
