

GrabberGard Technical Assessment Request Form for Joints

You may encounter a job site situation for which there appears to be no specific firestopping listing. This form is intended for your use, to provide us with the information necessary to identify or develop the firestopping design.

Please complete the form with as much detail as possible and fax it to Grabber Technical Services at (604) 515-1783. If available, architectural drawings, competitor listings for the application (if any), or other documents pertinent to the application should be included.

Upon receipt, we will contact you to discuss the application, to inform you of a current applicable listing if there is one, and to determine if UL-approved testing for the application can be scheduled.

Each Separate Firestop System Requires Its Own Listing Request Form
