Collated Fastener Solution for Steel Framing

In steel framing construction, precision and speed are critical. TrueFramer™ is ready for when every second counts.

TrueFramer™ is Grabber's next-generation collated system designed for the demands of steel framing on mission-critical builds. It delivers greater speed, precision, and efficiency—helping crews increase productivity, improve safety, and reduce material waste.

Key Features:

- Lightweight and compact
- Advanced feed system
- Flip-up design for quick bit access

Benefits

Expertly designed for steel framing applications. TrueFramer's balanced, comfortable build ensures ease of use throughout the day, while its compact design easily navigates tight spaces. Minimize lost screws and experience safe, intuitive operation that boosts your crew's speed and productivity.

Innovation, Evolved

TrueFramer™ elevates Grabber's trusted collation platform with an innovative flip-up design and cutting-edge feed system, ensuring effortless fastener advancement and precise screw placement. It seamlessly integrates with professional-grade impact drivers, enhancing efficiency and performance on every jobsite.

TrueFramer is designed to fit a range of impact drivers commonly used on the jobsite, including:

- DeWalt® DCF860/DCF870
- Milwaukee® 2953, 2957 & 2853
- Makita® XDT14Z
- Hilti® SID 6-22

IDEAL FOR

Mission Critical Facilities

- Data Centers
- Healthcare
- High-Security
- Public Safety

General Commercial Construction

Onsite and Offsite Construction

Prefabrication

FEATURES

- Only 5 1/2 in. and .75 lbs.
- Compact and durable design
- Flip-up nose for bit access
- Quick removal strap

CONNECTION COMPATIBILITY

- Box beam headers
- Bracing, blocking, clips
- Cripple stud connections
- Flat strapping
- Hat channel
- Inline framing
- Resilient channel
- Ridge connections
- Splices
- Stud and track connections
- Trusses
- Web stiffeners

COMPATIBLE COLLATED FASTENERS

- CFLP101875SLYZ
- CFLP101875SLRG
- C23V
- C31DV
- CFP101875LYZ
- CFLP101875LRG
- C34DZ
- C234DZ10
